

## Singapore

### Providing value-added supply chain solutions

Established since 2002, Jabil Singapore offers comprehensive and strategic supply chain solutions, including manufacturing, system assembly and supply chain management, solving industry-specific challenges for global markets. Our business model leverages a lower-cost geographical supply base, supported by Singapore's strength as a top logistics hub in the heart of Asia. The strong presence of leading service providers here creates a conducive supply chain ecosystem that empowers customers and partners to optimize and orchestrate their own supply chains.

Jabil Singapore has the ability to provide varying combinations of services including design, prototyping, new product introduction (NPI), manufacturing, system assembly, logistics and product lifecycle management, for diversified markets including healthcare, computing and storage, instrumentation, defense and aerospace and semiconductor equipment. The facility also houses a Digital Lab which not only serves as a technological showcase of Jabil's advanced manufacturing and supply chain capabilities, but also as a space to foster the incubation of new ideas - from vision and prototyping, to global manufacturing.

Jabil Singapore is well-positioned to drive supply chain intelligence, visibility and innovation globally and accelerate time-to-market with excellent quality and engineering support services. Our commitment to delivering the highest quality products, services, and supply chain management solutions, supported by the implementation of Lean Six Sigma and a culture of continuous improvement, drives us towards our Factory of the Future goal which will revolutionize manufacturing efficiency, delivering greater productivity than before.

Jabil Singapore is strategically positioned to serve as an extension of your end-to-end manufacturing and post-manufacturing needs.

# Singapore

Jabil Singapore offers a flexible and customer-centric engagement model, supported by highly-skilled and experienced teams that are focused on delivering superior quality and value to customers. Each customer, regardless of size, has one point of contact and a dedicated support team to ensure optimal performance locally and globally. Jabil Singapore is also committed to continued human resource development, equipment and process upgrades.

## Manufacturing Capabilities

- Printed circuit board assembly and testing
- Electro-mechanical system assembly
- Additive manufacturing
- Cleanroom assembly

## System Integration

- Full and sub-system assembly
- Build-to-Order/Configure-to-Order
- Advanced manufacturing
- Enclosure integration

## Logistics Services

- Supply chain management
- Aftermarket services
- Build-To-Order/Configure-To-Order
- Direct fulfilment

## Commitment to Quality

### CERTIFICATIONS

- ISO 9001
- AS9100
- ISO 13485
- ISO 14001
- OHSAS 18001

### Regulatory Certificates

- UL
- CSA
- TUV
- CCC
- NRTL
- JPAL

### Registered to

- FDA
- ANVISA
- Health Sciences Authority (Singapore)

## About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of the world's most well-known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times.

We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.
