

JABIL
ITALY

AN INTEGRATED OFFER FOR
END-TO-END SOLUTIONS

JABIL

Create. Innovate. Manufacture. Manage.

Located in Campania in the Southern Italy, Jabil entered the Italian market in late 1990s.

Jabil supports its clients as partner in planning and creating products, thanks to an integrated offer which includes design, prototyping and industrialization process, till the installation and after-sale services, through the product's lifecycle management.

Supported by the global corporation, Jabil Italy can rely on a global network of expertise, financial solidity and synergies thanks to the relations built with design and research centers from all over the world.

With more than 20 years of experience and an in-depth knowledge of photonics, Jabil Italy delivers customers tailored solutions even for the most complex projects.

PARTNERING WITH
THE CLIENT FOR
CUSTOM-TAILORED
SOLUTIONS.

JABIL ITALY

About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of some of the world's best known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times. We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.

Certifications

- Automotive: TS 16949
- Medical: ISO 13485
- Environment: ISO 14001
- ISO: 9001:2000

Tools and Processes

- Lean thinking in all business processes
- Access to customer data at plant-floor level via online customized data reporting
- Continuous monitoring to ensure optimum performance standards
- Closed-loop planning supported by real-time traceability tools for products and raw materials

Photonics

Jabil Italy provides a wide range of services to both Italian and international clients from collaborative design to final configuration and after-sale services. We specialize in:

- Photonics volume production, configuration and testing of complex transmission equipment
- Optical & radio modules after-sales services (multivendor logistic spares part management)
- Radio filter production and testing

Our customers benefit from more than 20 years of experience and an in-depth knowledge of photonics.

In cooperation with Jabil's global network of design, manufacturing and supply chain expertise and some of Italy's best design and research centers, Jabil Italy develops synergies that create new end-to-end market solutions for its customers.

Laboratory

- Calibration
 - Calibration benches for all optical instruments
 - Calibration benches for electrical/general purpose instruments
 - Calibration and adjustment benches for optical sources
 - Calibration benches for RF instruments
 - Calibration bench for Network Analyzer (PNA-L & PNA-X)
- Maintenance
- Repair
- Test

Manufacturing

- 150,000 square meter Campus
- Manufacturing Area: 23,000 square meter area
- Assembly and testing of electronic boards
- Assembly and customization of integrated Systems
- Build-To-Order / Configure-To-Order
- Direct Fulfillment
- Flex Line Solutions
- Sub-Assembly
- Full-System Assembly
- Automation solutions
- ISO 9001 and ISO 14001 certifications

Design and Prototyping

- Prototyping and introduction of new products
- Partnerships with design centers and universities

After Sales

- Repair and management of spare parts
- Spare design & Management
- Advanced repair services

Logistics

- Freight management
- Transportation sourcing and management
- Close to Naples Capodichino international airport and the Naples Port
- Logistics Design
