GREEN POINT
A JABIL COMPANY

To thrive in an ever-changing market, Jabil Green Point Automation is constantly expanding our capabilities to meet the needs of our customers.

We established Jabil Green Point Automation capability at Changhua Taiwan in 2013. As the largest automation development center in Taiwan, we provide injection molding machines and peripheral equipment for Jabil's manufacturing operations worldwide.

Jabil Green Point continues to develop the most advanced automatic equipment & End-of-Arm Tooling (EOAT) for molding processes and Electronic Manufacturing Services. The manufacturing factory has sufficient capacity to produce hundreds of machines.

The machining section aims to improve our production efficiency and offer customized machining parts to fulfill our customers' needs as well.

JABIL GREEN POINT AUTOMATION

Leveraging our innovative technologies, extensive expertise and creative solutions, we are able to help our customers to deliver both fascinating and high-quality products to consumers which stand out in the market.

Jabil Green Point Automation

Green Point Capabilities

Offering extensive capabilities to our customers, Green Point's capabilities range from tooling technology to manufacturing and supply chain management. We help our customer's design, build and bring innovative products to the market faster, more efficiently and with greater affordability.

For decades, Green Point has been providing advanced innovative product design and breakthrough materials technology to some of the world's most well-known and successful brands. Our world-class engineering team has produced high volumes for a broad range of industries.

Industries

- Consumer Lifestyles & Wearable Tech
- Emerging Growth
- Mobility

If you're a company looking to achieve rapid growth and create some real disruption in your market, Green Point is your trusted partner of choice.

Available New Technologies

- Injection Molding M/C & LSR Application & Rotary Table
- Insert Molding EOAT & Feeding
- Screw Fastening
- Dispensing
- Point-to-Point Soldering
- Laser Marking
- Label Placement
- Vision Inspection
- Vision-guided Assembly
- (FATP) Final Assembling Testing Packaging

Commitment to High Quality

- Certificates and Registrations
 - ISO9001

About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of the world's most well known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times.

We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.
