

# JABIL

## Bandung

### Defense & Aerospace

### Your Partner for Affordable, High Mix, Low Volume Aerospace and Defense Solutions

Often referred to as Indonesia's leading smart city, Bandung is the country's third largest city, and the capital and economic heart of West Java. With a young and tech-savvy workforce, Bandung offers developed infrastructure, political stability and business-friendly local authorities. It is also a thriving hub for the education, information and communications technology (ICT), and creative industries.

Established in 2016, Jabil's manufacturing facility in Bandung is strategically located in Bandung Teknopolis, the future center of Indonesia's technology industry. The 90,000 sqft facility specializes in affordability in high-mix, low-volume, simple to medium complexity solutions for the aerospace and defense industries. Components manufactured at Jabil Bandung include valve components, fittings, fasteners, plates, brackets, small housings and forks.

### Customer-Focused Business Model

Being customer-centric is a core value at Jabil. Each customer, regardless of size, has one point of contact and a support team to ensure optimal performance locally and globally. We are uniquely positioned to provide our customers with a highly skilled, motivated and experienced workforce; flexibility; speed-to market; materials spend leverage; and global supply chain partners. We are also committed to continued human resource development and equipment and process upgrades.

**Jabil Bandung** specializes in affordability in high-mix, low-volume, simple to medium complexity solutions for the aerospace and defense industries.

## Bandung

### Defense & Aerospace

#### Manufacturing Capabilities

- 3 - 5 axis CNC milling, turning, turn milling; variaxis machine
- 1m x 1m form factor
- Production hours of up to 500-K/year

#### Special Processes & Finishing

- Deburring
- Polishing
- Assembly
- Passivation
- Anodizing
- Painting
- Non-Destructive Testing (NDT):  
Magnetic Particle Inspection (MPI) and  
Fluorescent Penetrant Inspection (FPI)
- Chemical conversion

#### Inspection Capabilities

- High accuracy coordinate measuring machine (CMM)
- Surfcom-Nex Stylus Calibration
- Profile projector
- Horizontal Scan Reflex 52
- Height Gauge, Micrometer, Block Gauge

#### About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of the world's most well known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times.

We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.

#### Security, Certifications, Anti-Counterfeit Protection and Experience

Jabil provides the level of quality and security that is essential in the highly regulated industries of defense and aerospace, in conjunction with advanced IP protection systems and market leading anti-counterfeit protection.

#### Certifications

- Aerospace: AS9100
- NADCAP certified  
(NDT and Chemical Processes)
