GREEN POINT
A JABIL COMPANY

Jabil Green Point R&D develops and creates cutting-edge, consumer facing materials technology and comprehensive product solutions that enable companies to better realize their ideas and concepts.

To thrive in an ever-changing market, we are constantly advancing and expanding our capabilities to meet and exceed the expectations of our customers.

Jabil Green Point R&D adapts and embraces change by developing technologies that help bring products to the market faster.

By leveraging our innovative technologies, extensive expertise and creative solutions, we are able to help companies deliver high-quality products to consumers at an accelerated rate.

JABIL GREEN POINT R&D

The team who can help realize the change you want to see in the world.

Jabil Green Point Research & Development

About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of the world's most well known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times.

We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.

Green Point Capabilities

Offering extensive capabilities to our customers, Green Point's capabilities range from tooling technology to manufacturing and supply chain management. We help our customer's design, build and bring innovative products to the market faster, more efficiently and with greater affordability.

For decades, Green Point has been providing advanced innovative product design and breakthrough materials technology to some of the world's most well-known and successful brands. Our world-class engineering team has produced high volumes for a broad range of industries.

Industries

- Consumer Lifestyles & Wearable Tech
- Emerging Growth
- Mobility

If you're a company looking to achieve rapid growth and create some real disruption in your market, Green Point is your trusted partner of choice.

R&D Capabilities

- Material Analysis
- New Material Application
- New Process Development
- Decorative Solutions
- End-to-end Solutions

Available New Technologies

- **Laser Technologies**
 - Laser Selective Plating
 - Laser Drilling / Engraving
- **Functional Intergration**
 - Composite Overmolding
 - Liquid Silicon Rubber
 - Lamination
 - Glass Insert Molding
 - C Treatment Molding
- **Visual Decoration**
 - Tactile Digital Printing
 - Ceramic Injection Molding
 - PVD / Anodizing
 - Out Mold Release Three Dimension Overlay Method
